

More Murphy's Laws...

- Nothing is ever as simple as it first seems.
- Everything you decide to do costs more than first estimated.
- Every activity takes more time than you have.
- It's easier to make a commitment or to get involved in something than to get out of it.
- Whatever you set out to do, something else must be done first.
- If you try to improve something long enough, eventually it will break down.
- By making something perfectly clear, someone will be confused.
- You can fool some of the people all of the time, and all of the people some of the time, and that should really be enough to get by.
